FIRST OFF, CONGRATS ON
YOUR ENGAGEMENT!

LET'S MAKE SURE
YOUR WEDDING DAY
IS FUN FOR BOTH
YOU AND YOUR
GUESTS AND THAT
YOU DON'T FORGET
A SINGLE BIT OF IT!

I approach weddings by thinking about what I would want if I were the one getting married and my focus is always on making things FUN. If you're looking for photography, check out that guide, but this one is all about the EXTRAS!

A CINEMATIC WEDDING FILM?

Do you want to see your wedding vision play out as if it were a movie? I've got you!

I offer cinematic style wedding videography, plus full ceremony videos. I'm an FAA certified drone pilot, so I like to throw a little of that in when I can, too...

ROAMING PHOTOGRAPHER?

You know how on cruise ships and at sorority parties they always have a photographer running around taking pics that you can go find on a table at the end of the night?

Well this one is like that, but EVEN BETTER! Your guests will get to take home a memento from your wedding and it will be a photo of them all dressed up and having a blast! Plus...you'll get the digitals to look through later!

A photographer will roam around during your reception taking pics of everyone - or you could even do this BEFORE the ceremony in place of a guest book and THEY get the photos to keep and YOU get the digitals to look back over to see all your guests!

OR OLD SCHOOL PHOTOBOOTH PHOTO STRIPS BUT WITH A LIVE PHOTOGRAPHER!

Who doesn't love those old photo booth strips? Booths by Bryant has made this ultra cool again and we are joining the crowd BUT with the bonus of a live photographer taking the pics!

Guests pose three times in front of our backdrop and come back at the end of the night to pick up their photo strip AND you get to see all the crazy digitals!

ABOUT ME

I'm a lawyer, turned teacher, turned full-time photographer & videographer. My work isn't "traditional" because I'm completely self-taught, so I play by my own rules. I believe life is too short not to make the most of every single day. I laugh a lot and I like to have fun. Boring pictures are not my thing.
